

The booking platform where guests pay in meticaís.

IndicoStay is a booking platform built for Mozambique. Guests search, book and pay with M-Pesa, e-Mola, mKesh or card, and your property receives the booking and the payment in meticaís. We are taking on new partners for the December high season.

WHY IT IS DIFFERENT

Payment is where the booking is lost.

International platforms require an international credit card. Most domestic guests do not have one, and the booking dies at the final step.

You are paid 24 hours after check-in.

No month-end cycle. We follow the Airbnb model: your payout is released 24 hours after your guest arrives, in meticaís, to M-Pesa, e-Mola or a bank account.

The same room is never sold twice.

Every booking locks the room in the system while payment completes, and availability stays under your control from your own dashboard.

HOW TO START

1 Create your account.

Register your property at indicostay.com/hotel-login and get immediate access to the dashboard.

2 Load your property.

Photos, room types, rates, availability and cancellation policy. We do this step with you, by phone or WhatsApp.

3 Go live for December.

We confirm your documents, publish the listing and your property enters search.
